### ***Speak Like a Leader...***

There are many good reasons why Toastmasters teaches both communication and leadership skills. People with good communication skills are more likely to be promoted to leadership positions, and good leaders need communication skills to be effective.

One of the most important elements of leadership is the ability to motivate people. Without motivation, even the most skilled team of seasoned professionals is unlikely to achieve great things. A highly motivated group of talented people, on the other hand, can move mountains.

Toastmasters offer simple guidelines you can follow to help build team motivation with only your words and your voice...

If you want to be a leader, you have to learn to speak like a leader. And Toastmasters is here to help.
